About Our Wine List & Beverages:

Liquor license is held by Indulge. We can customize your bar service to fit your needs and budget. Our wine list is set up by style of wine. Depending on your party style and guest preferences, you can choose one of the following wine service styles:

- **By-the-Bottle:** You can also select 1 or more of our 150+ wines that are offered by-the-bottle and we can offer your guests a glass from the selected bottles. You will be charged simply for each bottle opened.
- **By-the-Glass:** You can offer an "open bar" to your guests where they select from one of our 40+ wines by the glass.
- **Wine Flights:** We can create a custom wine flight for you depending on a special theme or wine preference. Our wine experts will help you select 3 wines and create a customized information card.
- **Educational:** Our wine experts will work with you to choose a theme and develop a tasting mat with 3-6 different wines. A formal instruction will help educate your guests about each of the selections.
- We also have a featured **beer, ports, premium bar, soda** and **coffee**. If you need specialty drinks, we can bring in just for your party. We offer retail and wine baskets.

We also offer **Box Lunches, Champagne Brunch, Buffet or Catering** services! If you can dream it, we can do it both on premise or off premise!
